Self-contained ice maker system Daily production up to 454kg

Crafted for premium commercial settings, this split-type ice maker redefines ice production with its signature crescent-shaped cubes. The innovative separated structure enhances spatial flexibility and cooling efficiency while maintaining a sleek design. It consistently delivers crystal-clear, slow-melting crescent ice that naturally hugs the glass—keeping drinks colder longer without diluting their flavor. The elegant, shimmering arc adds visual appeal to cocktails, whiskey, coffee, and tea. Easy to maintain and clean, it's an ideal choice for bars, specialty cafes, modern tea houses, and upscale events.

Output: 454kg/24h Color: Stainless steel
